

## Easy-Bind

Premium product for difficulties in chewing and swallowing

The **easy-bind thickening powder** is a high-quality and fibre-rich mixture, is readily soluble, thickens quickly, does not continue to thicken afterwards, dissolves completely clear and is tasteless.

The **easy-bind thickening powder** can be used to quickly set hot and cold food, to thicken puréed components and fruit juices, coffee, tea and for stabilising salad creams and dressings. Clear liquids remain clear after being thickened. Particularly well suited to the creation of puréed foods to be moulded into shape with pürform silicone moulds.

Likewise, perfectly suitable for the creation of mousses or foamed foods, e.g.: salad foams and dessert mousses. (Smooth food with the Isi Gourmet Whip.)

For thickening all drinks, coffee, tea, juices, soups and puréed food. Lactose-free, gluten-free, crystal clear, fat-free, tasteless, purine-free.

### Individual - just like your residents and patients

- Use your own recipes
- Easy to install
- Consistency can be individually tailored
- Praise and appreciation for your kitchen
